BRAC & ABERDEEN PROVING GROUND

Base Realignment and Closure, or "BRAC," is the process the Department of Defense uses to reorganize its installation infrastructure to more efficiently and effectively support its forces, increase operational readiness, create synergy among missions, and facilitate new ways of doing business. BRAC 2005 impacts 13 installations nation wide and makes APG one of 20 BRAC growth communities in the US. By law, all BRAC 2005-impacted missions must be moved and fully operational by September 15, 2011.

Estimated Number of Positions:

8,200 new, direct positions **on Post** (civilian DoD and embedded contractors)

7,500 – 10,000 indirect jobs (contractor tail and spin-off located **off Post**)

28,000 direct, indirect, and induced new positions to the region

60,000 new residents statewide

Types of Jobs: (Partial list of federal positions transferring to APG)

Electronics Engineers	Logistics Managers	General Engineers
Computer Engineers	Contracting Officers	Security Specialists
Mgmt and Program Analysts	Secretaries	Equipment Specialists
Inventory Managers	Supply Managers	Safety Technicians
Budget Clerks	Budget Analysts	Information Technology Managers
Clerical	Technical Writers	Telecommunication Technicians/Managers

When will the transfer of jobs occur and when will unfilled job openings become available?

Jobs have begun moving to APG incrementally with 340 anticipated to be on the ground in Summer '08 and another 600 to follow in 2009. The majority of the jobs will be available beginning in 2010, primarily in the engineering and science, logistics, support and maintenance, and business administration sectors. Average salary is \$87,000, and many of the jobs will require a security clearance. Approximately 30% of current personnel intend to transfer with the jobs. Recruitment efforts at regional colleges and universities, job fairs, and other workforce initiatives will be used to fill vacancies.

Who is relocating to APG?

TeamC4ISR

Communications-Electronics Life Cycle Management Command (Ft. Monmouth, NJ)

Communications-Electronics Research, Development & Engineering Center (Ft. Monmouth, NJ)

Information Systems Development and Acquisition (Redstone Arsenal, AL)
